Re: Notice of Violation
RCRA 3007 Information Request
Troy Chemical Corporation
EPA ID# NJD002144517

Dear Mr. Chernes:

We are writing to request a 30 day extension to respond to the above referenced information request which was received on November 8, 2019.

Troy Chemical Corporation ("Troy") appreciates the time and effort of USEPA in performing the inspection in July 2019 and in assisting Troy to stay in compliance with RCRA. Troy is committed to full compliance at all times with all environmental statutes and regulations. We work hard on a daily basis to ensure that full compliance is achieved. That is why the inspection by and subsequent exchange of correspondence with USEPA has been helpful to Troy to achieve this goal.

Your letter notes a number of concerns based upon the inspection. Troy has already addressed most, if not all, of these concerns as reflected in the August 12th and 23rd letters from Troy to Kimberly Chavez. In our response to the information request the information contained in the letters to Ms. Chavez will be referenced. We will also address any concerns that may not have been addressed in the prior correspondence.

However in order to do a full and complete response Troy needs an additional 30 days. At this time Troy is involved in a number of other environmental initiatives including updating our Discharge Prevention and the Containment and Countermeasures Plan for the New Jersey Department of Environmental Protection. The holiday season is also rapidly approaching because of which we will also lose some work days.

TROY CHEMICAL CORPORATION

For these reasons we request that EPA grant Troy a thirty (30) day extension of the deadline to respond so that the response will now be due on January 7, 2020.

Thank you for considering this request. We look forward to your response.

Very truly yours,
